

DRONES:

Revolutionizing Agriculture in Maryland

See how drones can play a role in the success of your crops from pre-planting to harvest and beyond!

Thursday, Nov. 21

8:30 a.m. – 2 p.m.

Carroll Community College

Cost* (includes continental breakfast and lunch)

\$15: Carroll County Residents

\$20: Maryland Non-Carroll County Residents

\$25: Non-Maryland Residents

*Final cost appears at checkout.

Learn how drones can help you maximize yields, run a more efficient organization and enhance crop production by:

- Assessing Land and Crops
- Monitoring for Disease
- Analyzing Soil Erosions
- Managing Drain and Irrigation
- Improving Crop Yields
- Improving Farm Efficiency
- Insurance Documentation

Registration is Required

Course #: DRN-011-A2

Register online at carrollcc.edu/CETregistration

or call Continuing Education and Training at 410-386-8100.

Event Agenda Includes:

Drones in Planting/Harvesting/Growing

Presenter: Tom Marnane – MADTECH Marnane Agricultural Drone Technologies

Future of F3 (Food/Fish/Farming) Innovation/Technology/Investment

Presenter: Andrew Rose – MidAtlantic Farm Credit

Panel Discussion

Interactive Q&A session with local and regional subject matter experts.

Flight Demos
